

Refinished Bathtub Warranty

Armoured Touch Inc. has a high standard of quality in workmanship and materials used on every project. We offer a **5 year warranty that covers the workmanship of the job**. Workmanship covers any peeling, blistering or poor adhesion to the surface due to craftsmanship. We also guarantee that the bathtubs surface will not yellow due to UV and hard water with proper cleaning and maintenance.

Caring for your refinished bathtub:

DO NOT use the tub or tub surface for 10 hours. DO NOT pick surface dust off with your finger during curing time. Any surface dust will dissipate in 3-4 weeks with normal cleaning and usage.

The suggested time of ten hours will allow the tub to the point that it can be used. However, the bathtub will continue to cure for approximately 30 days until it reaches its full adhesion and hardness.

Like any product of lasting quality, products installed and/or refinished by Armoured Touch require a certain amount of upkeep to preserve their finish. Due to the non-porous surface of the finish, any household liquid detergent will give you excellent cleaning results. To remove stains use a mild acid solution such as a liquid toilet bowl cleaner. Never use cleaning products containing abrasive agents, ammonia, bleach, acid, wax, alcohol, or solvents as these can etch into the surface.

Preventative maintenance and care are the keys to ensuring a long life for your refinished surface.

- DO NOT lay soap bottles or any objects on the finish at any time.
- DO NOT let a leaky faucet go un-repaired.
- DO NOT use abrasive cleaners. No SOS pads, Comet or Soft Scrub.
- DO NOT use loose bathmats with suction cups underneath.
- Maintain the caulking around the bathtub.

Failure to comply with these maintenance instructions may invalidate the Armoured Touch warranty.

Following these simple instructions will ensure a long life for your bathtub's finish and allows us to stand behind our work.
